SELF REGULATING

Parlor Air Tight STOVE,

BY the use of which the temperature of a room may be kept without variation for months.—This Stove combines beauty, utility, science and art to a greater degree than any thing ever offered to this community. It will not use one half the wood of a common Air-Tight Stove, and not one tenth of an open fire. It will keep a room more comfortable than the best regulated climate on earth. A few dollars expended for one of these Stoves will save life for many years when under the influence of diseases of the Lungs.

This Stove commands the admiration of the learned and unlearned—it operation is more sure than the Magnet and more perfect than the Sun.

THE SARSAPARILLA!

SUPERSEDES ALL OTHERS!

HIGHLY CONCENTRATED

SARSAPARILLA!

Cures the Worst Diseases that ever preyed on the Human System, and saves Thousands of Lives Annually!!

6,000 CASES

Of SCROFULA cured by it this year, and 5,000 Cases DYSPEPSIA and HUMORS, of which *proof* can be furnished. This is the only medicine known to cure these diseases.

THIS Sarsaparilla will bear TWO QUARTS OF WATER to a Bottle, and then be far superior to any in use. It is put into the Bottle its FULL STRENGTH and power, without reducing it, and this is done for the special benefit of those who use it, as it is objected to all other Sarsaparillas that they are Weak, Cloudy, Adulterated, Sickish, and are wholly incapable of reaching the seat and cause of the disease. But this Sarsaparilla comes warranted to be

Six Times Stronger

than any other, and Six Times Better, Safer, Surer, and Cheaper than all others. *THIS* Sarsaparilla has bestowed on it some of the best MEDICAL Talents and Skill in the world; and CURES all the Sickness, KILLS all the Pain, and REMOVES all the suffering that it is in the power of Human means to do. It Cures

Scrofula, Dyspepsia, Jaundice, Liver Complaint, Humors, Canker, Costiveness, Rheumatism, Cancer, Debility of the System, Salt Rheum, and every Disease which arises from Impure Blood!

CONSUMPTION CURED WITH KELLEY & CO'S SARSAPARILLA!

A PHYSICIAN, who is truly the most distinguished of any in a large City for professional skill CERTIFIES, astonishing as it may seem, that he actually CURED a case of Consumption with Kelley & Co's Sarsaparilla; and says "that there is no medicine in which he has so much confidence for Diseases of the Lungs." Some will marvel at this REMARKABLE Cure, but hundreds are knowing to the fact. This INESTIMABLE Sarsaparilla is also doing wonders in foreign cities. And save

SIR BENJAMIN BRODIE,

Surgeon to the Royal Family of England, "that there is no other medicine which is CAPABLE of doing so MUCH GOOD, and yet so INCAPABLE of doing injury." What distinguished compliments are these? Never was there a medicine honored with STRONGER RECOMMENDATIONS. It CURES when every thing else fails, the

Severest Scrofula and Humors,

where the flesh falls off the bones—the bones are diseased, and the DART OF DEATH seems ready to strike the sufferer. And the reason for this is, that it makes the BLOOD perfectly Pure, Rich, Healthy, Quick, Free, Nutritious. It CURES all those ALARMING cases of DYSPEPSIA and JAUNDICE, where the Liver is Swollen and Painful, Strength wasting, Appetite gone, Pulse weak, or Feverish, Skin yellow, Nerves deranged. It restores Health, Strength, and Vigor, to every disordered function of the System—causing them to move on just as Nature requires. And for its WONDERFUL Power over Disease in every form and part which no other Medicine possesses, the public justly style it the

Master Remedy of the Age!

The great secret of all its triumphant success over all other Sarsaparillas, is, that it does not tamper with the patient, or prolong his sufferings. But it first attacks the disease and stops it, then removes it, then brings up the flesh and strength on a perfectly pure Blood, so that the cure is always thorough and permanent. Others only scatter, or back on the disease, but this EXTIRPATES it wholly from the system—this saves the patient's life, while others endanger it. The whole Body is made so healthy by the use of this GIANT MEDICINE, the System so vigorous—Mind so cheerful—Nerves so quiet—Skin so fair—Spirits so buoyant, that Medical Colleges, Professors, and Physicians always prefer it, for the sake of its Superiority. Try it, all you who are seeking the PRICELESS BLESSINGS OF HEALTH!

Ladies, Married and Unmarried!

It is for you, especially, that this Sarsaparilla is made, as the HEALING ART has been tasked to the utmost to have it exactly suited to FEMALE COMPLAINTS. These Complaints have never been cured for as they ought; hence it is that all the medicines which are used with the hope of Cure, so invariably and entirely fail. But this Sarsaparilla has the SPECIAL ability, to cure every Disease, Affection, or Pain, which comes under this head. It regulates the secretions—corrects the irregularities of the System—restores strength to every part—beautifies the complexion—imparts a flow of spirits—cures palpitation of the Heart—removes Blotches, Pimples, Freckles.

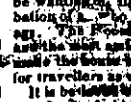
New Hale at Oldtown!

JAMES STINSON



Announces to his friends and to the public, that he has fitted his large, commodious and centrally situated dwelling for a Public House, and has opened the same to the public with the determination that every attention shall be paid to the accommodation of the travelling community.

He gives full assurance that he will keep a TEMPERANCE HOUSE, and that nothing shall be wanting on his part to merit a share of the approbation of a share of their patronage. The Table will be kept on a liberal scale, and the best attention shall be given to make the house pleasant and comfortable home for travellers as well as more permanent boarders.

It is believed that a house of this description is greatly needed in Oldtown, and the public are invited to give the house a trial.

DR. STEPHEN JEWETT'S

Justly and Highly Celebrated

Family Medicines!

Comprising the true

Health Restoring Bitters,

PULMONARY ELIXER,

AND

Strengthening Plaster.

TRIED and proved by their continued use for the last fifty years, to be superior to any other preparations for the cure of every species of disease dependant upon

Impurities of the Blood, Derangement of the Stomach, Bowels and Liver, and all affections of the Lungs, Air Passages and Throat, as also Pains in the Bones, Joints, Side and Back, Rheumatism, Weak Stomach, Cramp, &c.

None genuine unless signed on the wrapper, "Stephen Jewett & Co." with a pen, to whom direct all orders.

Prepared by STEPHEN JEWETT, son of the late Dr. STEPHEN JEWETT, of Rindge, N. H.

Principal Office,—No. 30, India Street, Boston.

Please read the following certificate of a highly respectable and aged gentleman.

RINDGE, N. H., April 1, 1848.

To all whom it may concern:

I, the undersigned, do hereby certify; that I was acquainted with the late Dr Stephen Jewett from my childhood up to the time of his death, and having been his nearest neighbor, can testify to his medical skill and knowledge of Botany, with hundreds of others now living, and that in the year 1814 I was afflicted with jaundice palpitation of the heart, pain in the side, and general debility, so as to be *unable to attend to any business* and being a neighbor of the late Dr. Stephen Jewett, I had recourse to his far famed *Bitters* and *Plaster*, and by their use was permanently cured. Since the above named date, I have used Dr. Jewett's medicines with equally good effect, as prepared by Stephen Jewett, son of the late Dr. Stephen Jewett, of Rindge, N. H., and I cheerfully recommend them to the public as safe and invaluable medicines;—and being composed entirely of vegetables, I think them far better suited to the diseases of our climate than medicines composed of minerals or foreign nostrums. Try them, and judge from facts and experience. I consider Dr. Stephen Jewett's Strengthening Plaster far superior to any external application, for the purposes for which it is recommended, of any that I have ever known.

EBENEZER BLAKE.

DR. STEPHEN JEWETT'S

Health Restoring Bitters.

These Bitters, acting as they do upon the Stomach, Liver, and Bowels, removing all the morbid secretions, thereby purifying the blood and invigorating the digestive organs, not only cure diseases that already exist, but they also fortify the system against all attacks of disease. It is a common remark among those who have used Dr. Jewett's Bitters, that they have but little fear of being sick. The remark is strictly true, for while the stomach and bowels are kept in a good condition, and the blood pure, all the great predisposing causes are removed, and the whole system is fortified against those morbific influences, which under less favorable circumstances would have engendered perhaps fatal disease.

In order that the public may know that they are offered a truly excellent article, we append the following certificate, which may be seen, with numerous others, in their original, by calling on the proprietor.

BOSTON, May 15, 1848.

To all whom it may concern.—I hereby certify, that I have been for years troubled with a scrofulous humor, which has been very troublesome, and was fast undermining my health, and had severe pains in the back, loss of appetite, languor, and general debility.

A short time since I commenced taking Dr Jewett's Health Restoring Bitters, and in a very short time my humors and pains left me, my appetite improved, and my health has not been so good for years, all of which I attribute to Dr Jewett's Health Restoring Bitters.

(Mrs.) E. H. RUSSELL, Beach Street.

DR. STEPHEN JEWETT'S

Pulmonary Elixer.

Nearly one third of all the deaths that occur in New England are caused, either directly or indirectly by diseases of the Lungs and Chest. Why is this great sacrifice of human life? How happens it that the brightest intellects, of the highest promise, the hope and support of declining years, are smitten down in early life? Why is it that so many families have been made desolate by that fell destroyer, Consumption? And how happens it that so many interesting and lovely children are cut down every year by those dread diseases, the Quinsy and Croup? Is it because these diseases are incurable? Physicians will tell you these diseases can be cured,—if taken in season.

It is true these diseases can be cured with almost absolute certainty—if taken in season. Everybody should be aware of this fact, and provide themselves with Dr Jewett's Pulmonary Elixer.

The following certificate, among numerous others which have been received, are appended for the benefit of those who desire to see certificates.

WINCHENDON, Mass., March 10, 1848.

Stephen Jewett—Dear Sir,—I feel it a duty to you and to the public generally, to inform you all, who may have been afflicted as I have, that I have been entirely cured of a severe and long continued cough, by one bottle of your Pulmonary Elixer.—For months I have been a great sufferer. I had pain in my left side, sore throat, constant cough, and raised a good deal of bad looking matter. My strength was gone, and my flesh was wasting away. I took many things without benefit, and was steadily getting worse, till I procured your Pulmonary Elixer, which has cured me, and I cheerfully recommend it to all who are troubled with coughs.

Yours truly,

THOS. CUMMINGS.

DR. STEPHEN JEWETT'S

Strengthening Plaster.

These Plasters possess the property of *removing Pain, curing Lameness, Cramp, Pain or Weakness in the Back, Joints or Side, Rheumatism, Weak Stomach, &c.*, and when used in connection with the Bitters, in Liver Diseases, will prove very beneficial in removing the peculiar pain between the shoulders, and in the side and back, well known to those suffering with such diseases. This Plaster, from the quantity and quality given is vastly cheaper than, and superior to, the "Poor Man's" or any other Plasters, and can be made any size wanted, without waste. One roll will make five good sized Plasters. A single trial will be all the certificate necessary.

The Great Remedy for Gonorrhœa

GLEET, Stricture, and all analogous complaints, is Dr. DOUGLASS'S ARABIAN PASTE. Dr Douglass is well known, having practiced in the principal cities in the Union, during the last 40 years. His only reason for introducing the Paste in this public manner, is the consciousness that there are thousands of all treated complaints in this city—thousands of individuals who are going down to premature graves by taking the miserable drugs of quacks.

Dr D. most solemnly affirms that during his practice of forty years, this Paste has never, in one single instance, failed of effecting a cure in a few days, without any change of diet or hindrance from business. He has had some of the most stubborn cases—cases that have resisted the regular course of treatment, adopted by our first physicians, for months and even years, but after taking the Paste for a few days, the angry symptoms disappeared, and the patients were discharged, entirely cured.

If the unfortunate, instead of drugging themselves with quack nostrums, would purchase only one box of the Arabian Paste, we should not see so many emaciated bodies and sallow countenances as we do at the present time.

☞ In case this Paste should fail to effect a cure in the shortest possible time, ten times the price paid for it will be given the purchasers on returning the empty boxes.

For sale only by the original inventor and sole proprietor, Dr. PETER G. DOUGLASS, at his Office, No. 55 Union street, Boston, at $5 per box, where he can be confidently consulted on every disease incident to the human frame, and the patient rely upon the most beneficial course of treatment that can possibly be adopted.

Medicines sent to any part of the country.

THURSDAY, JANUARY 31, 1849.

☞ The certainty that there will be a comparatively small amount of lumber brought to our market the next season, materially suggests the thought that the industry and the capital which has been heretofore employed in the lumber business, must be directed into new channels The almost total failure of the wheat crop and of the potato crop, in Maine, has taken away from the farming community, their main reliance for exportation, and brought no little discouragement in the pursuit of that branch of business It cannot be expected, then, that capital and labor will suddenly rush into farming, in the vicinity, and if they did, would any very special advantage be conferred therefrom by the city of Bangor

The present aspect of business in our city, seems to us to demand the serious attention of every one who has any interest in the growth and prosperity of the city There never were so many idle men in our city as now, showing that there is not a demand for labor Capital perhaps never felt so little disposed to engage in any new enterprise, partly, probably for the want of some feasible plan being presented to its acceptance promising favorable results, and partly, if not mainly, because it manages, through the entanglements of the times, to enrich itself by making special loans which only delay, but do not prevent the ruin of those who thus raise the price of money, and who thereby compel those in regular and safe business, to take his business paper into the street instead of meeting the accommodations which ought to be extended to them.

These are some of the difficulties, discouragements and hindrances to the welfare of our city which are apparent to all close observers They suggest the necessity of some remedy That remedy is to be found in starting here a large manufacturing interest This will not only give employment to the labor of those immediately employed in the works but will increase the demand for those agricultural productions which do not come in competition with the productions of the Western farmers, and will give a spring to all interests of labor and trade here

Bangor, by her position, her means of communication, the capital which she has at command and the amount of raw material which abound in her vicinity, and her well known enterprise, ought to be the great central point of manufactures She must engage in manufactures or shrink in importance

In Baltimore, Providence, Newburyport, Portland, or any of the old towns where attention has been turned to manufactures, the town has become quickened with new life—real estate has increased in value—new streets been opened—buildings suddenly erected, and the hum of cheerful and prosperous industry, making all glad

The attention of Bangor has been too exclusively devoted to the lumbering business, and the last year's experience teaches that a portion of the enterprise of our city had better be turned in a different direction

The mechanics of our city should have confidence now in putting in action motion all the springs of industry But little manufacturing is done here compared with the real wants of the people. Thousands and thousands of dollars are sent out of the city for articles which might and ought to be manufactured among ourselves Landholders, capitalists, laborers, indeed all classes have something at stake in this matter, and ought to feel an interest in it

The true policy for our people is, while we can avail ourselves of the resource of lumber to enlarge our manufactures Much of our lumber which now goes to market in a rough state could receive greater finish Many articles of wood could be manufactured in Maine, for the supply of the large markets By devoting a portion of the capital and credit of the people of the State to the increase of manufactures a large amount of capital from abroad would be tempted and brought here for investment. In this way our home labor would be encouraged, our home markets multiplied and enlarged, and much of the steady and faithful water power which now runs waste would be made to labor for the welfare of man By pursuing this course we shall cause the children of our State to find ample support, and to become as much attached to our soil, as the huge old pines growing upon it

The legislation of the country will now be devoted, not to lessening the value of the labor of the country, but to increasing it When thus rightly directed it can do much to help the people—to give confidence in investments in manufactories—to diversify the labor of the country, and to bring out the active enterprise and persevering energy of our people We feel fully impressed with the necessity of Bangor engaging immediately and vigorously in manufacturing This must be the main reliance for her prosperity, and we have thrown out these suggestions and thoughts in the hope of calling out suggestions from the practical minds in our city as to the best means of bringing about the change Will they favor us with their thoughts?

☞ The N Y True Sun mentions a fact of some interest to our people that since the construction of the Atlantic and St Lawrence Railroad, real estate in Portland has advanced in value more than twice the amount of the interest on the investments in the road, and the city is expanding very greatly The influence of this road upon Lewiston and the vicinity is very perceptible and in drawing the trade and stimulating the enterprise of all that section of the country

☞ General Taylor's resignation, as Major General, we have already stated, has been sent into the Department The Washington correspondent of the Philadelphia Bulletin, says the message is brief and pointed The General merely states, that he has been called by the people to serve in another capacity, and therefore resigns his present commission

One Phase of Life in London.

It has come out, on examination, that the poor in several wards of the London workhouses infirmaries, sleep on boards covered with straw, thirty-one men and two boys occupied a sloping board thirty-one feet six inches long. Straw changed once a fortnight

'We learn,' says the National Whig, 'by letters from Louisiana, that Gen Taylor will probably not leave his residence for the capital until the 1st of February His departure will be regulated, however, by the condition of the navigation of the upper rivers, as he purposes to pass through Nashville We also learn that Mrs Gen Taylor will not encounter the travel across the mountains this winter, and that he will be accompanied to Washington only by Col Bliss and his lady'

For California.

The Nantucket Inquirer states that the ship Ansonia, Capt Seth N Swain, was cleared at that port Tuesday, by Messrs C G & H Coffin and others, for San Francisco, direct, with passengers and a cargo consisting principally of building materials ready to be put up, lumber, naval stores, provisions and sperm candles. She takes out no intoxicating liquor Eleven of her passengers belong to Nantucket, five to Fall River and one to New York

Horrible.

Two young children were frozen to death in the stage-coach on the road from Port Jervis and Honesdale, Pa, night of Dec, 26 The father and mother of the children, who were Irish repeatedly endeavored to obtain admittance into the taverns along the route to warm themselves, but were in every instance refused admission

☞ A gentleman who arrived in New York, Saturday, relates that he left New Orleans, after having recovered from an attack of the Cholera, and on leaving a prominent physician of that place came on board to take leave of him, and before they had gone 50 miles, they were overtaken by another steamboat which gave the physician a death

Shipwreck and Loss of Life.

The brig G W Knigh, Monroe, of and from Portland, sailed on the 4th inst for Cardenas, and when twenty-two hours out, the wind blowing a heavy N W gale, her deck load shifted, and she was thrown on her beam ends The vessel immediately filled, and a passenger, Mr Charles Noyes, a cooper, who was in the cabin, was drowned The cook died four hours after The captain and crew were taken from the wreck by sch Pilot, Capt. Colby, which took them to Gloucester Saturday afternoon

T. P BATCHELDER, Secretary

Levant, Jan 5, 1849

An Important Step.

We understand that the Secretary is about to instruct the various Collectors of the Customs that in all cases where they have reason to believe that goods have been invoiced below their value with a view to defraud the revenue, the amount of duty chargeable by law shall be taken in kind That is, the proportion of goods necessary to cover the duties shall be taken for the duties without regard to the value By this course the temptation to import goods falsely invoiced will be effectually done away with, and the honest importer protected against the risks of dishonest competitors. An old revenue law gives this power to the Treasury Department, without the necessity of any further legislation —[Boston Times

Thus, after all, is but a very partial remedy — No one knows as well as the importer the value of the goods and they will never bring their full value at auction The government, after deducting the expense of seizure and sale, would realize a net product of, perhaps, half the value of the goods, which, very likely, might be purchased by the importer himself, who would thus defraud the government, and apparently vindicate his honesty at the same time There is but one remedy for the evil which has become so enormous, and which this plan is designed to meet In this way alone can the revenue be protected from fraudulent invoices, and in this way, alone, can the spirit of the constitution, which provides for uniform duties at all the ports of the country, be fulfilled This barter trade may frighten a few importers, but it will amount to very little in the end

[Prov Jour

A Singular Character.

An old gentleman who resides not far from this city, has purchased a barn near his residence, which he has fitted up as a church internally, and added a steeple to the external surface In the interior a pulpit is erected, under which the old gentleman has had a vault dug, and in which a substantial coffin is placed to contain his remains when he goes the way of all flesh Perhaps the most singular part of the affair is, that public worship has never been performed in the edifice alluded to, and will, in all likelihood, so long as the owner lives, he being an unbeliever in the Christian doctrines.—[Boston Times

Maryland.

The area of Maryland increased in 6, 140,00 — that of Massachusetts in 1840 [illegible] The population of Maryland in 1[illegible] was [illegible]—that of Massachusetts was [illegible] The population of Maryland was [illegible]—that of Massachusetts was 737,699 The increase of the population of Maryland in 20 years was 92,[illegible] 882—that of Massachusetts, in the same period, increased 234,415 And in Maryland 40,000 of that increase was in the city of Baltimore—while the populations of most of the counties has diminished In Maryland, the number of our population engaged in agriculture at the last census (1840) was 62,946 In other pursuits the number was 59,041—about one-third consumers to two-thirds producers of agricultural productions In Massachusetts the number engaged in agriculture was 87,839 and in other pursuits 125,067—more consumers than producers—affording a market for the farmer, and consuming not only the products of the farmer of Massachusetts, but those of the Maryland farms also —[Maryland Free Press

Mr Geo W Fellows, of this city, formerly clerk of the steamer Belle, which plied between New York and Albany, has invented a new method of constructing vessels, which promises to be of great importance The principle is to construct vessels of all kinds, without the heavy, cumbrous timbers, placing in their stead small round iron or copper ribs, which pass from the keel through the centre of every plank and deck beam, where they are secured by large screw nuts which bind the vessel together five times as strong as by the common method The advantages of this method are, much greater strength, buoyancy, durability and economy — We have been shown several other inventions by Mr Fellows, which exhibit great ingenuity —N Y Sun

Something New.

Messrs Kobie & Miller have an establishment in this city whose whole business, employing some $10,000 worth of capital is preparing sausage skins for the European market. They attend all the slaughter-houses, obtain the intestines of all the hogs, prepare and then ship them across the Atlantic, realizing a large profit in the transaction We were never more astonished than in learning such a branch of trade was carried on in our city The people of Europe receive these sausage skins ready for use, as imported from Cincinnati But this is not all Western Avenue has another establishment, not a whit less singular It is the establishment of a little German, whose name we did not learn, whose entire business is cleaning hog's bladders, and making them fit for holding lard to ship to the English market We learned that he was in a fair way of to get rich, sending off per annum over 100 000 bladders

Beauty Fades.

It is a feeling too prevalent among the young and inexperienced that mere personal charms alone—of which by a kind dispensation of Providence, no one knows herself deficient—are sufficient to secure permanent attention and respect No mistake can be more fatal How many fair stars, who have burst on it were on the world with only their beauty to recommend them, have when the novelty of their appearance wore off, been doomed to suffer the darkest neglect "An accomplished woman can never become an object of neglect She will always command distinction among her acquaintance When she was young, she might please more, but as even then she pleased chiefly by her mind, she will still from the superiority of her character, stand forth an exalted figure — Sense and capacity joined to worth and sweet peas, are exempted from the condition of things else, which is to lose their influence when they lose their novelty

Importance of Light to health.

We have lately seen it stated that there is a marked difference in the healthiness of houses according to their aspect in regard to the sun — Those are decidedly the healthiest, cæteris paribus, in which all rooms are during some part of the day fully exposed to direct light It is well known that epidemics attack the inhabitants of the shady side of a street, and totally exempt those on the other side —Medical Journal.

Kindness.

Not only religion and humanity, but self respect forbids us to inflict one single useless pang on a fellow be. Genuine obedience to God is the free choice and reception of a law, the great principles of which our reason approves, and our own consciences bind on us, which is not an arbitrary injunction but an emanation and expulsion of the Divine Mind, and which is intended throughout to give energy, dignity, and enlargement to our best powers. He, and he only obeys God triumphantly and acceptably, who reverences right, not power, who has chosen rectitude as his supreme rule; who sees and reverts in God the fullness and brightness of moral excellence, who sees in obedience the progress and perfection of his own nature.—Dr Channing.

The Largest Baby yet—A Race of Giants

Mr and Mrs Randall, the celebrated Scotch giant and giantess, have recently had a son born to them at their residence, near Mineral Point, Wisconsin, whose weight at three days old was twenty-two pounds! This is their first child, and it, we believe, the first successful experiment in modern times, in the production of a race of giants They do great things in Wisconsin now-a-days —[Rochester American

According to the most accurate accounts, only four millions Bibles were in use in the United States in the year 1840 The number has now increased to 30,000,000. In 1840 the Bible was printed in forty-eight different versions, at the present time in 136

The parent who would train up a child in the way he should go, must go in the way in which he would train up the child.

Modesty is more becoming, and always seems more valuable than beauty Beauty perishes, but modesty never decays.

What a majesty there is in the Christian's death—what a glory in his hope! As writers roll the smoothest the hearer they approach the ocean as the rose emits the sweetest when dying so the sun appears most glorious when setting, so is it with the Christian

If rogues were to devote half the application to some honest calling which they do to thieving, they would make fortunes.

The Poor—God help them.

BY MRS MARY C NEWETT.

Old Winter hath come with a stealthy tread,
O'er the fallen Autumn leaves,
And shrilly he whistleth, overhead,
He peepth beneath the eaves,
Let him come! We care not 'mid our mirth,
For the driving snow or rain,
For little we reck of the cold, chill hearth,
Or the broken window-pane

'Tis a stormy night, but our glee shall mock
At the winds that loudly prate,
As they echo the moans of the Poor that knock
With their cold hands at our gate;
The Poor! We give them the half-picked bone,
And the dry and mildewed bread;
Ah! they never, God help them! know the pain
Of being over-fed

Fill round again with the cheering wine,
While the fire glows warm and bright,
And sing me a song, sweetheart of mine,
Ere you whisper the words 'Good night!'
You never will dream, neath the covering warm,
Of your cold and curtained bed,
Of the county rag and the shivering form,
And the yawning roof o'erhead.

The Poor! God pity them in their need!
We've a prayer for every grace;
They rate us with outstretched hands for bread,
And we give them a stone—a stone.
God help them! God help us! for much we ask,
Though lofty and rich we be,
And open our hearts to all that knock
With the cry of Charity!

McKENNEY'S

COSSACK SALVE

An invaluable remedy

FOR Fever Sores, Rheumatism, Swelling of the Feet and Limbs, Swelling of the Tonsils or Sore Throat, Chronic Eruptions of the Skin, and all Scrofulous Diseases Rigid Cords occasioned by Colds or Strains, Stiff Neck, Chilblains or Chapped hands; Sore or Inflamed Breast, Weakness or Pains in the Stomach, Piles, Corns Warts and Common Sores, and Cuts and Bruises of all kinds

In bringing this article before the Public, we are aware that we labor under no small disadvantage amidst the multitude of 'All Healing Ointments' and 'Panaceas' that are now advertised as the "most effectual" and certain cures" for all diseases indiscriminately, to which man or animals are subject.

A history of this Salve and the wonderful cures it has effected in the above complaints, will be found in a pamphlet accompanying each Box—a reference to which is invited before purchasing

We would only add that we have undertaken the task of manufacturing the above named Salve at no means less trouble and expense, not so much as a matter of speculation and pecuniary benefit as in compliance with the earnest and repeated solicitations of personal friends and those who have experienced its wonderful medicinal and all-healing properties.

To say indeed, that we do not expect to realize a handsome remuneration for our services, would be alike useless and untrue But we flatter ourselves that if, of much, we are richly paid and the article soon, very soon, has an extensive sale—the Public are receiving a full and ample equivalent

As we have already intimated, we do not and shall not call to our aid the empty puffing of the Press," or the 'bought certificates" of individuals and shall make use of them only so far as they have been or hereafter may be, entirely voluntary and unsolicited

The Salve is now before the Public

They, and they alone, will decide upon its real virtues and medicinal properties to say less, were injurious to ourselves—to say more would be superfluous

Here are some of the many Certificates—

The subscriber was afflicted with a Fever Sore upon his leg for about six years, and in the winter of 1846 it commenced swelling from the ankle to the knee After using many remedies without success I applied some Salve obtained of Mr A M McKenny and continued its application until I had used six bottles, which entirely cured me and I have had no return of the disease since I would also say that I know the above Salve to be a cure for CORNS, one of my family having used it for this purpose with complete success

DANIEL SEAVEY

Dexter, (Maine) May, 1846

This certifies that one of my sons having been afflicted with a Fever Sore for more than a year and having tried various means to effect a cure without success which cost me about forty dollars I bought 1½ oz of JONATHAN McKENNEY'S SALVE which effected an entire cure in less than two months SIMEON MARSTON

Gray May 11, 1846

BANGOR June 5 1846

Mr McKenney—In going into the woods in the autumn of 1845 with the charge of quite a number of men for the winter lumbering operation I was induced to take a few bottles of your Salve at having been recommended to me as one of the best remedies for accidental Cuts and bruises and I found indeed to my great satisfaction that it was an invaluable article I also made application of it in cases of Cuts Sprains and bruises upon my cattle and found it equally beneficial It can truly be called the All Healing Salve

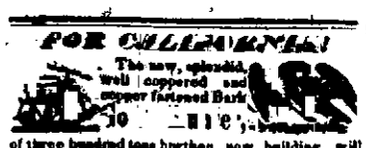
FOR CALIFORNIA!



The new, splendid, well coppered and copper fastened Bark

SULIOTE,

of three hundred tons burthen, now building, will be ready to leave for the *Gold Regions* the last of March next, and will proceed directly there, provided a sufficient number of passengers and quantity of freight are procured.

This Bark will remain upon the coast of California for several months, at the most convenient point for the gold region, and then return to Bangor.

Passengers in the GOLD HUNTER will be supplied with all the necessaries of life, and will have the privilege of making the Bark their home and store-house while she is on the coast. She will be fitted up expressly for this business, and every attention will be paid to the wants and wishes of her passengers. This is one of the safest and pleasantest modes in which our enterprising citizens, who wish to avail themselves of the recently discovered treasures, can do so.

The GOLD HUNTER will be commanded by one of the most experienced and thorough seamen on the river, in whom all will have entire confidence, and the voyage will be wholly made up under his direction and with special reference to the interests of the passengers.

No voyage has been projected for a long time which promises to be so pleasant and profitable as this, and those who propose to take passage in this substantial vessel, and avail themselves of the numerous advantages here offered, will please make immediate application to the subscriber.

JAMES DUNNING.

Bangor, Dec. 21, 1848.

DR. CUMMINGS'S
Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine With these others of vegetable origin are combined designed to render them more active, and consequently more immediately effective

The Dock or rather a species of it now ranks as a medicinal plant second to no one of the vegetable kingdom With the aid of a distinguished chemist, whom the proprietor has consulted in the preparation of the compound he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time

For many years the proprietor has tested in his practice the efficacy of the principal substances of the compound and is perfectly satisfied that they possess all the properties which have been ascribed to them Recently he considered the idea of uniting them which has resulted in the production of the compound In this the ingredients are found to act in harmony and to lose none of the qualities which they separately possess

A large portion of the Sarsaparilla is soluble in rum generally been supposed The exact most be relied on and least liable to decomposition is procured by subjecting the root to the action of the menstrua usually employed in extracts this virtue for a long time, without heat or any other accelerating agent New and peculiar to this compound, that has not been obtained by the ordinary means and that has been less than a fortnight in preparation

The Compound is recommended for Scrofula Erysipelas, Cutaneous Eruptions Eruptions of Mercurial disease Also for the numerous maladies arising from sedentary employments occupations of a harassing and fatiguing nature intense applications, exposures to extremes of heat and cold, overtasking the physical powers and other abuses of the constitution among which are Rheumatism, Pains Affection of the Liver Bilious Complaints and Dyspepsia or Indigestion

In diseases of warm climates with which the proprietor become familiar in his practice in Havana some years ago the compound will prove particularly efficacious, both as a remedy and a preventative

This medicine has been for some time in use, though only, where the proprietor has passed nearly half a century of his professional life It was extensively prescribed by him while in practice and it is believed to be in large with his medical brethren in general, to whom he is known

Prepared only by Dr Stephen Cummings and sold at wholesale and retail by Joshua Bergin & Co No 113 Middle street and Edward Mason No 15 Middle street recently agents for Portland

For the Removal and Permanent Cure of all

NERVOUS DISEASES,

And of those Complaints which are caused by an impaired, weakened or unhealthy condition of the

NERVOUS SYSTEM.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the *most valuable medicinal discovery of the age.*

Dr. CHRISTIE'S GALVANIC BELT

and

MAGNETIC FLUID,

as used with the most perfect and certain success in all cases of

GENERAL DEBILITY,

Strengthening the weakened body, giving tone to the various organs, and invigorating the entire system Also in

FITS, CRAMP, PARALYSIS AND PALSY,

Dyspepsia or Indigestion,

RHEUMATISM, Acute and Chronic, GOUT, EPILEPSY, NEURALGIA, TOOTHACHE, DEAFNESS, NERVOUS TREMORS, PALPITATION OF THE HEART, APOPLEXY, NEURALGIA, PAINS in the SIDE and CHEST,

Liver Complaint,

SPINAL COMPLAINT, and CURVATURE of the SPINE, HIP COMPLAINT, DISEASES of the KIDNEYS, DEFICIENCY OF NERVOUS AND PHYSICAL ENERGY,

and all

Nervous Diseases,

which complaints arise from one simple cause, namely,

A Derangement of the Nervous System.

☞ In NERVOUS COMPLAINTS, Drugs and Medicines increase the disease, for they weaken the vital energies of the already prostrated system, while undisturbed the strengthening life-giving vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery the exhausted potent and weakened sufferer is restored to former health, strength Elasticity and vigor

The great certainty and excellence of

Dr. Christie's Galvanic Curatives,

consists in the fact that they arrest and cure disease by *outward application*, in place of the usual mode of drugging and physicking the patient till exhausted Nature sinks hopelessly under the infliction

They strengthen the whole system equalize the circulation of the blood, promote the secretions and never do the slightest injury under any circumstances

Since their introduction in the United States only three years since more than

60,000 Persons

including all ages classes and conditions, among which were a large number of ladies who are peculiarly subject to Nervous Complaints have been

ENTIRELY AND PERMANENTLY CURED,

when all hope of relief had been given up and every thing else been tried in vain

To illustrate the use of the GALVANIC BELT, suppose the case of a person afflicted with that bane of civilized life Dyspepsia, or any other Chronic or Nervous Disorder In ordinary cases, stimulants are taken, which by their action on the nerves and muscles of the stomach afford *temporary* relief, but which leave the patient in a lower state and with impaired faculties, after the action is excited has ceased Now compare this with the effect resulting from the application of the GALVANIC BELT Take a Dyspeptic sufferer even in the worse symptoms of an attack and simply let the Belt around the body using the Magnetic Fluid as directed In a short period the marvellous properties will act on the positive element of the Belt, thereby causing a Galvanic circulation which will pass on to the negative and thence back again in the positive thus keeping up a continuous Galvanic circulation throughout the system Thus the latent nerves causes of DYSPEPSIA are PERMANENTLY CURED IN A FEW DAYS BY THIS SIMPLE AND SUFFICIENT TO ERADICATE THE DISEASE OF YEARS

Certificates and Testimonials

From the most Respectable Sources,

Could be given, sufficient to fill every column in this paper We make a few selections The first is an

EXTRAORDINARY CASE

and conclusively proves that

"Truth is stranger than Fiction."

The following letter, narrating one of the most remarkable events in the annals of Medical Science is from the

Rev. Dr. Landis, a Clergyman

of New Jersey of distinguished attainments and extended reputation

Shrewsbury New Jersey July 11 1848

DR A. H CHRISTIE—Dear Sir I owe it to you and to those of me what has been the result in my own case of the application of THE GALVANIC BELT AND MAGNETIC FLUID My reply is as follows

For about *twenty years* I had been suffering from Dyspepsia Every year the symptoms became worse and more fixed I obtain permanent relief from any course of medical treatment whatever My physicians were skilful and excellent men, but here the best prescriptions failed About *fourteen* years since, in consequence of frequent exposure to the weather in the discharge of my pastoral duties I became subject to a severe Chronic Rheumatism which for several years, caused me undescribable anguish In the severest paroxysms the skill of my physicians sometimes afforded me great relief but the relief was only temporary Further in the winter of '46 and '47 in consequence of preaching a great deal in my own and various other churches I lost my voice I was attacked by the Bronchitis, which soon became so severe as to require an immediate suspension of my pastoral labors My nervous system was *now thoroughly prostrated* and as my Bronchitis became Worse, so also did my Dyspepsia and Rheumatic affections—Indeed so strong that these disorders were connected with each other through the medium of an Nervous System My sufferings were indeed severe, and I had no prospect other than being entirely laid aside from the discharge of those duties, and the performance of those labors, in which my soul has ever found the highest of her joys

But providence seemed to place before me a remedy that can be obtained only through the Galvanic Belt and Magnetic Fluid

Dr Christie's Vegetable Extract
